## **DETAILED ACTION**

### ***Acknowledgement of Receipt***

Applicant's response filed on 11/02/2007 to the Office Action mailed on 10/02/2007 is acknowledged.

### ***Status of the Claims***

Claims 1-9 are cancelled, claims 32-37 are withdrawn by applicant, and claims 14 and 19 are withdrawn by the examiner as being directed to non-elected subject matter. Therefore claims 10-13, 15-18, and 20-31 are currently pending examination for patentability.

### ***Election/Restrictions***

Applicant's election without traverse of Group I (claims 10-31) and the species of amino acid: glutamine, aspartate, glycine, and alanine and the additional agent: lauric acid, sodium chloride, propylene glycol is acknowledged.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-13, 15-18, and 20-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 recites "slimming agent". It is not clear what is meant by slimming agent, and applicant does not define, either in the specification or the claims, what a

slimming agent is or what it is intended to do. Therefore, the recitation of "slimming agent" renders the claim and all the claims that depend on it indefinite.

Claim 10 provides for the use of a composition as a slimming agent, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 10-13, 15-18, and 20-31 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
